Create VPC

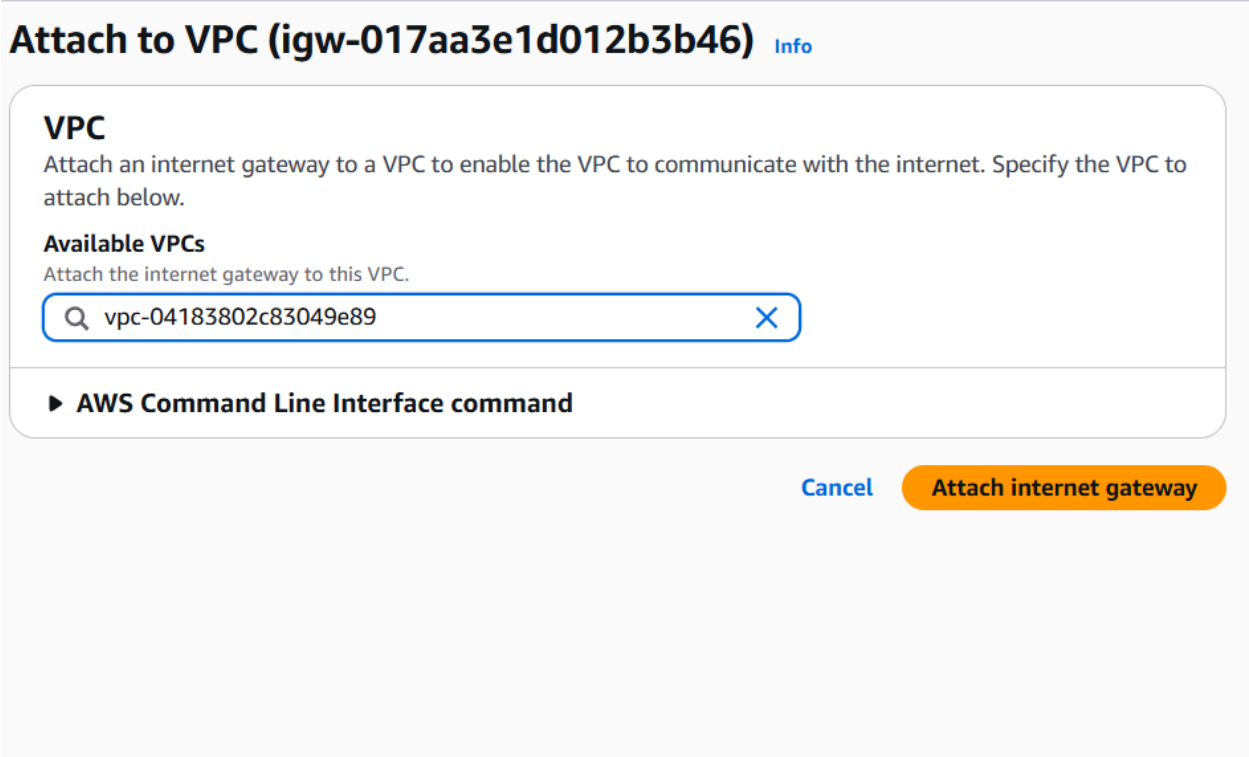

Create Subnets

Create and Attach Internet Gateway (IGW)

Configure Public Route Table

## Route table settings

**Name - *optional***

Create a tag with a key of 'Name' and a value that you specify.

pub-rt

**VPC**

The VPC to use for this route table.

vpc-04183802c83049e89 (pooja-vpc)

## Tags

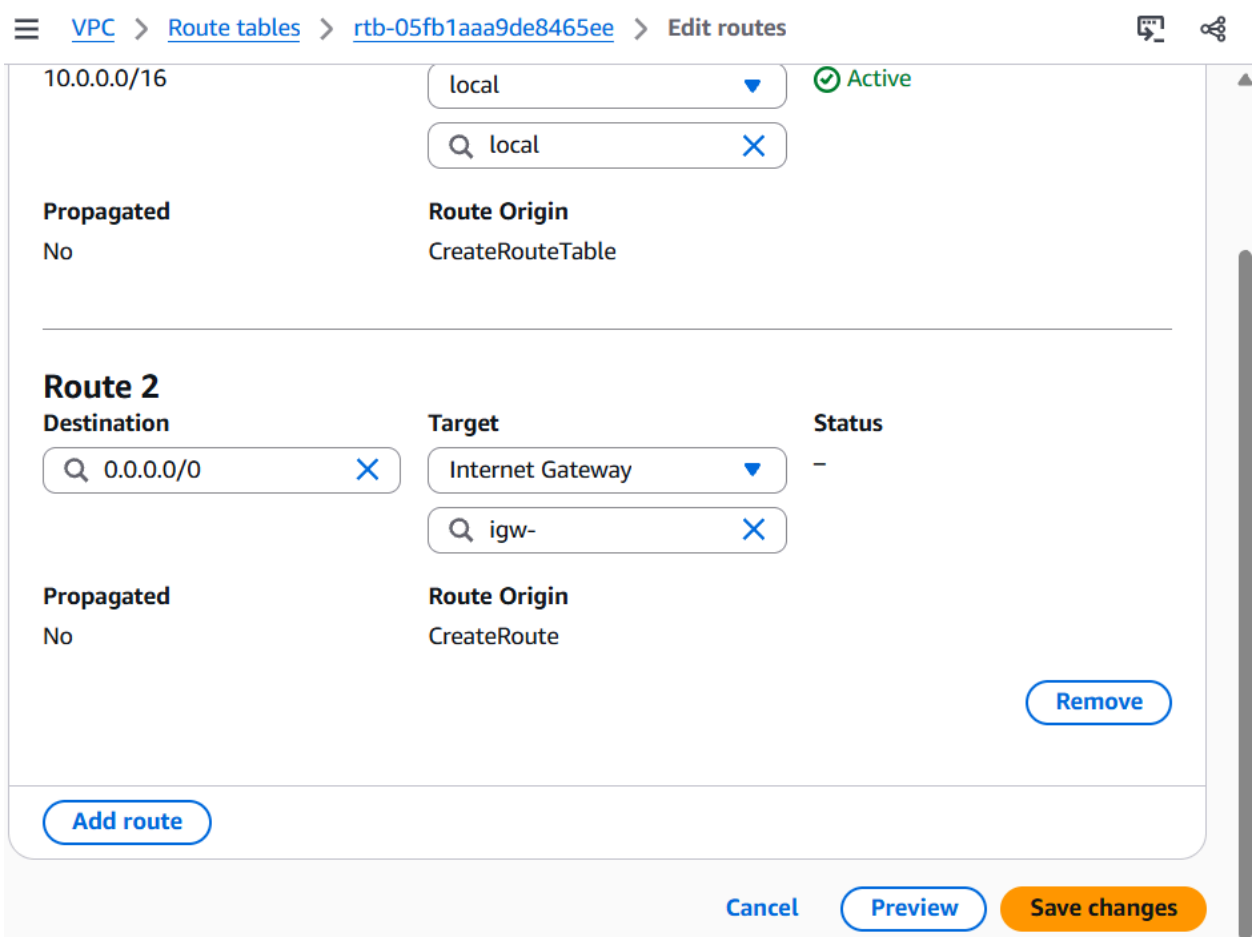

A tag is a label that you assign to an AWS resource. Each tag consists of a key and an optional value. You can use tags to search and filter your resources or track your AWS costs.

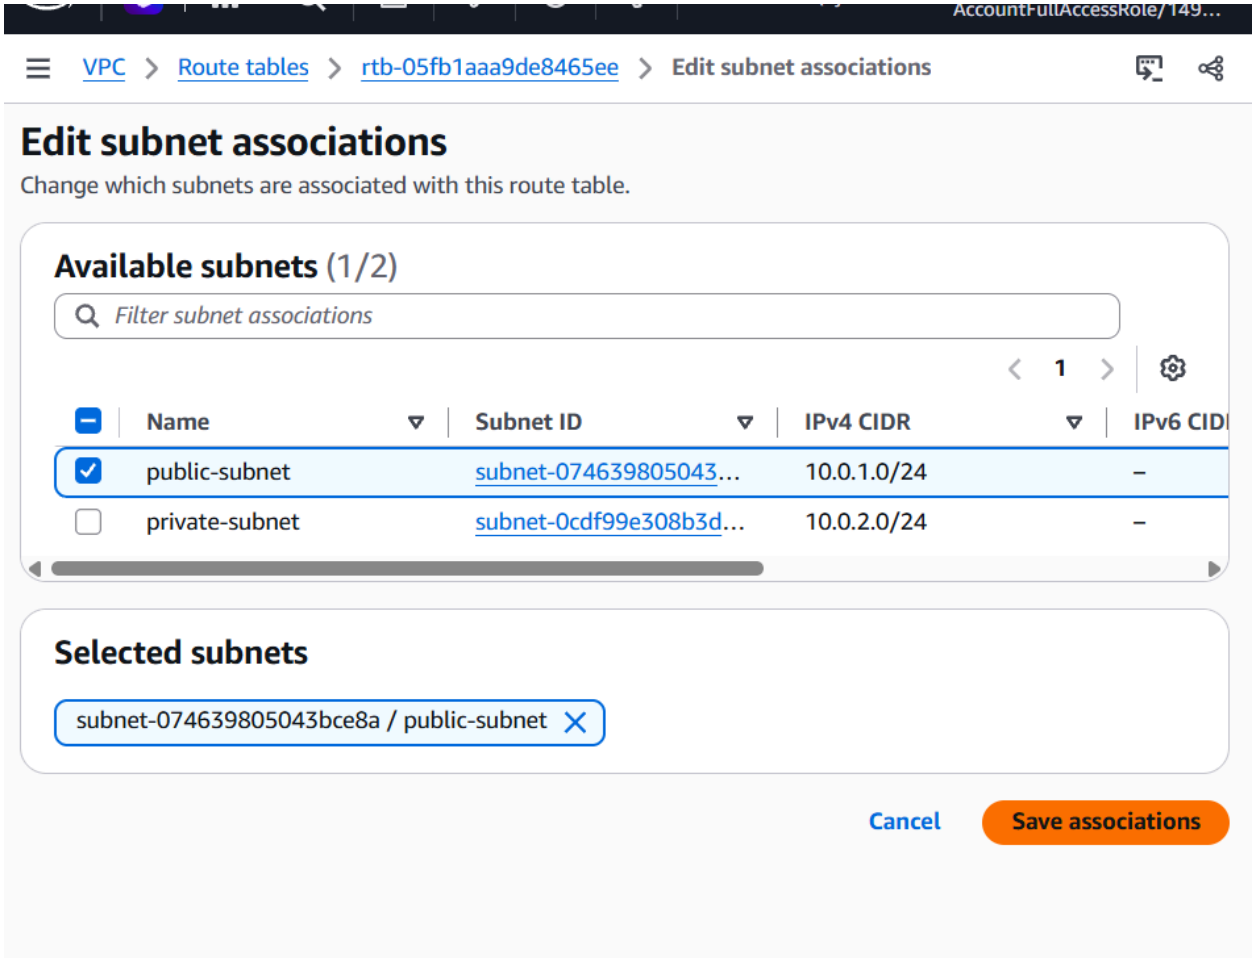

| Key | Value - *optional* | |
|---|---|---|
| Name | pub-rt | Remove |

Add new tag

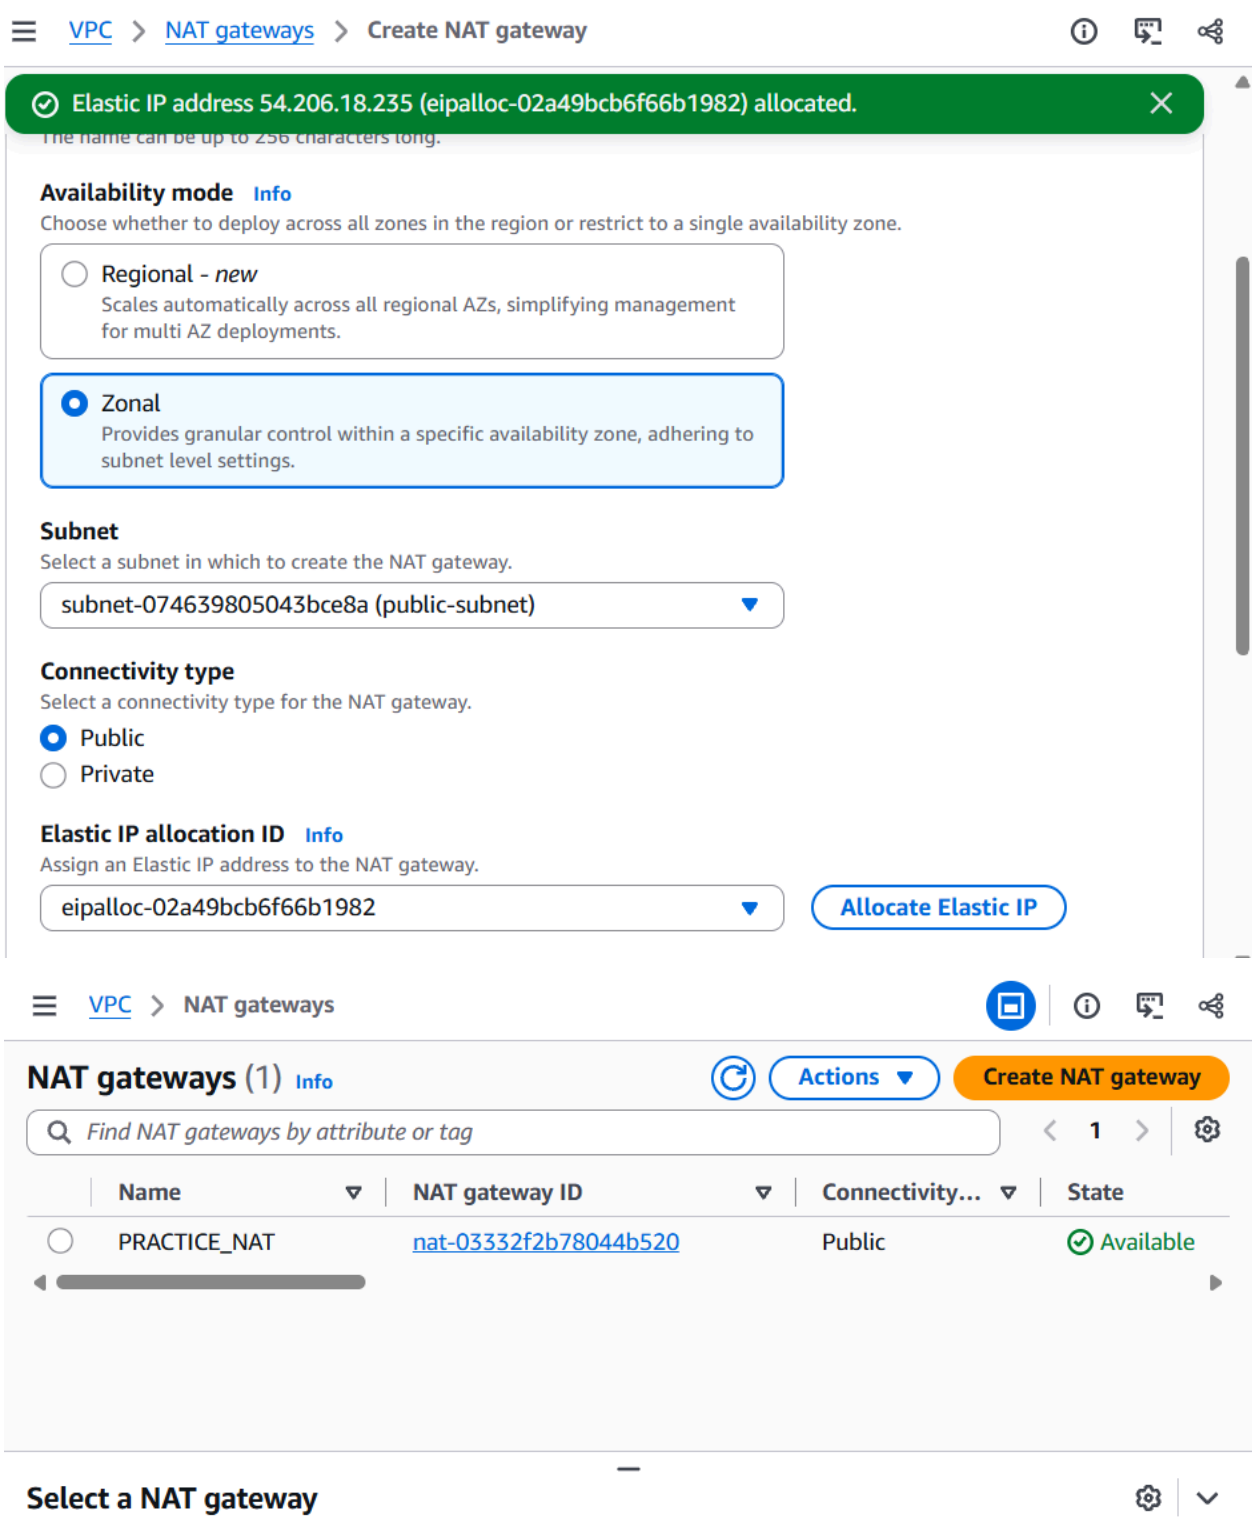

You can add 49 more tags.

Allocate Elastic IP and Create NAT Gateway

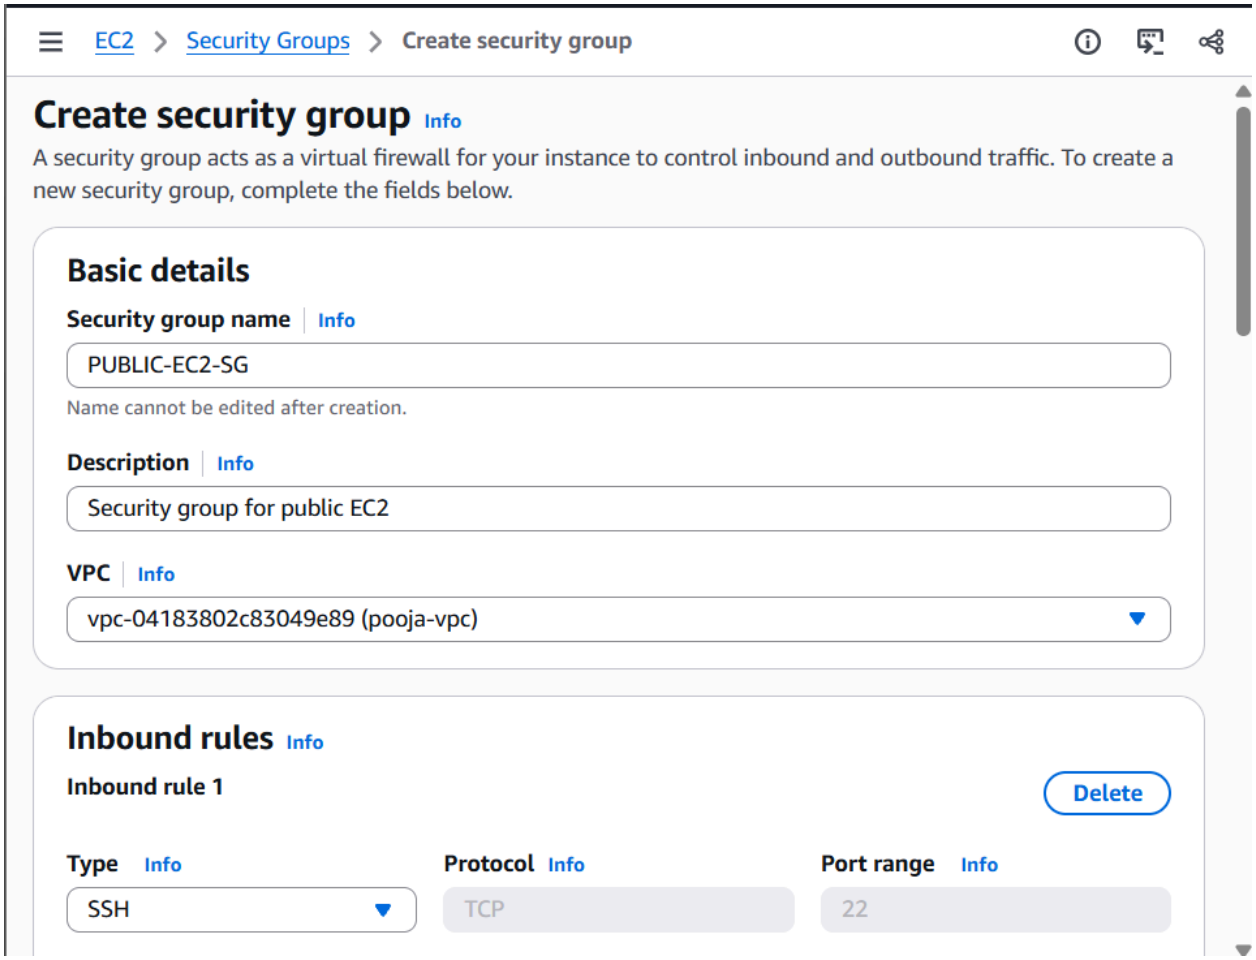

VPC > NAT gateways > Create NAT gateway
Elastic IP address 54.206.18.235 (eipalloc-02a49bcb6f66b1982) allocated.
Availability mode Info
Choose whether to deploy across all zones in the region or restrict to a single availability zone.
Regional - new
Scales automatically across all regional AZs, simplifying management for multi AZ deployments.
Zonal
Provides granular control within a specific availability zone, adhering to subnet level settings.
Subnet
Select a subnet in which to create the NAT gateway.
subnet-074639805043bce8a (public-subnet)
Connectivity type
Select a connectivity type for the NAT gateway.
Public
Private
Elastic IP allocation ID Info
Assign an Elastic IP address to the NAT gateway.
eipalloc-02a49bcb6f66b1982

Create Security Groups

EC2 > Security Groups > Create security group
Create security group Info
A security group acts as a virtual firewall for your instance to control inbound and outbound traffic. To create a new security group, complete the fields below.
Basic details
Security group name Info
PUBLIC-EC2-SG
Name cannot be edited after creation.
Description Info
Security group for public EC2
VPC Info
vpc-04183802c83049e89 (pooja-vpc)
Inbound rules Info
Inbound rule 1
Delete
Type Info
SSH
Protocol Info
TCP
Port range Info
22

## Basic details

**Security group name** Info

PRIVATE-EC2-SG

Name cannot be edited after creation.

**Description** Info

Security group for private EC2

**VPC** Info

vpc-04183802c83049e89 (pooja-vpc)

## Inbound rules Info

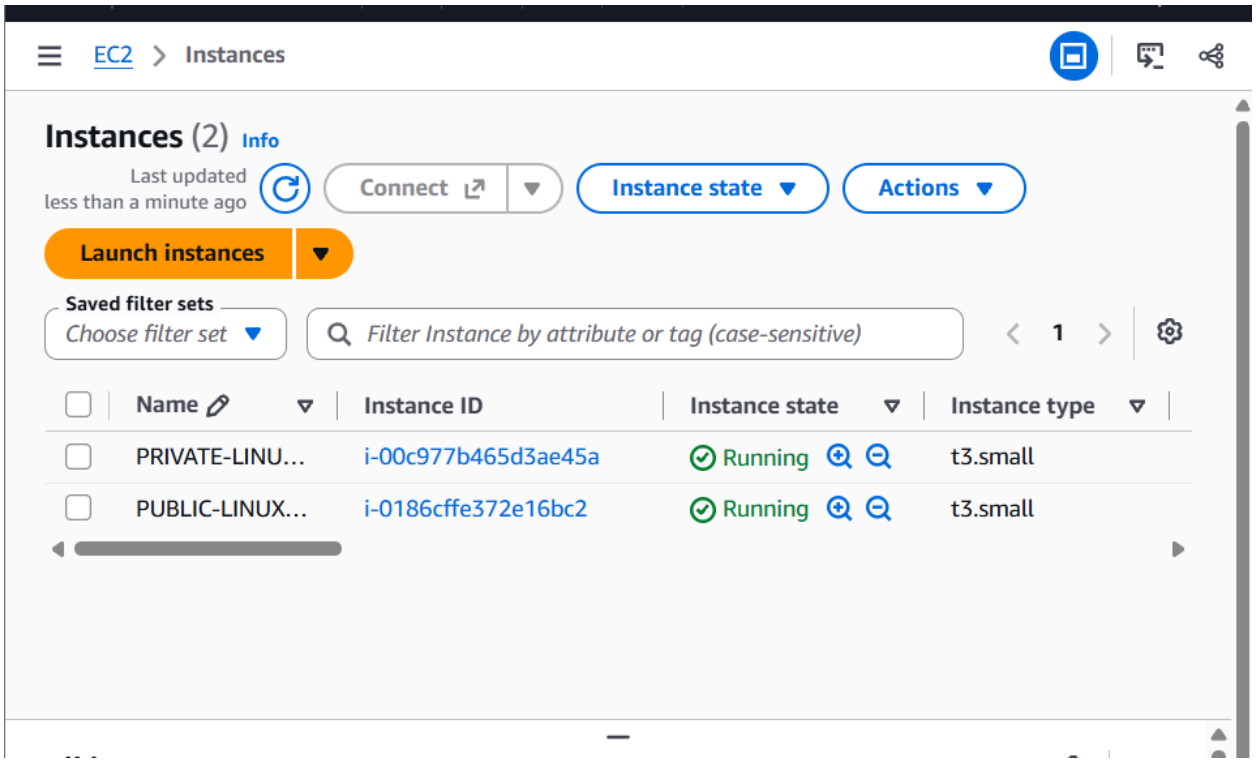

**Inbound rule 1**

Delete

| Type Info | Protocol Info | Port range Info |
